

FAR BEYOND THE BORDERS

1. Far beyond the borders

We can see the rainbow sparkling in the Sun
The clouds of hope swiftly gather
Calling forth the rain to shower
The blessings that we need

2. Far beyond the borders

Appear the bright burning sunset
The insects chirping, the evening birds singing
Calling for the Mother Earth
To cradle her children, give quiet rest of the night

3. Far beyond the borders

All the children of the world united
They are called to friendship in freedom
Singing their songs of bliss,
Dancing in the wind of change.

Refrain: ***Love without borders***

***Echoing in my ears, the teaching and love of Jesus
Forever lingers, giving glory to God alone.***
