

POEM BY SR BEATA AYOMBE, PNG REGION 8TH OF MAY 2017

Love without border demands of going forward with the mighty warrior, Wisdom

Love without borders seeks the face of God in living justice among the poor.

Love without borders urges us to listen to the cry of wisdom and come out of our cultural bound.

Love without borders exhorts us to leave our familiar paths, our comfort zones and old fashions of life;

Love without borders enables us to encounter the unknown and walk the new paths and embrace new fashion of life!

Love without borders builds brotherhood, sisterhood,

Love without borders makes Strangers friends,

Love without borders gives identity to stateless people, migrants be educated and sheltered,

Love without borders directs us to embrace challenges with compassion!

Love without borders opens us to new, innovative decisions and notions,

Love without borders helps us to shoulder our burdens together,

Love without borders calls us to walk our future hand in hand,

Love without borders teaches us to live our presence side by side in joy!

Love without borders calls us to communicate in common languages,

Love without borders unites us to practice common faith,

Love without borders invites us to mend our broken past, heal our broken friendships,

Love without borders desires us to be true disciples of Wisdom!
